

**feeFlexible Pavements of Ohio**  
**Level 2 Asphalt Quality Control Technician Training**  
**June 19-21, 2017**  
**Thornville, Ohio**

**Level 2 Asphalt Technician Requirements:**

To be approved as a Level 2 Asphalt Quality Control Technician by the Ohio Department of Transportation the following requirements must be met:

1. Successfully pass the Level 2 Asphalt Technician written exam.
2. Successfully pass the Level 2 Asphalt Technician (hands on) practical exam.
3. Submit a current Radiation Safety Training certificate.

**Pre-Test opportunity:** Anyone having the appropriate knowledge and experience wishing to schedule to take a **Pretest** may arrange to do so by contacting Tim Selby (614-275-1338) or Steve McAvoy (614-275-1379) at the ODOT Central lab. A **90%** Score is required to pass the Pretest. If this Level 2 Asphalt Technician pretest is failed, the Level 2 Asphalt Technician School must then be attended before a retest will be given. The Level 2 training manual may be downloaded from the FPO website for study in advance.

**FPO Level 2 Training:** Flexible Pavements of Ohio (FPO) offers this training course to prepare individuals having basic lab familiarity to take the ODOT Level 2 Asphalt Technician Exam. On the final day of the course, students will have the opportunity to take the ODOT written examination for Level 2 Asphalt Concrete Technician approval. Individuals will be scheduled for the practical laboratory exam. Refer to the additional, detailed information on this course description sheet.

**Students Will Learn:** Detailed information regarding ODOT's quality control and quality assurance program and testing requirements following the ODOT Construction and Material Specifications. Information necessary to take the examinations for ODOT Asphalt Concrete Technician Level 2 approval.

**Who Should Attend?** Asphalt contractor employees, consultants and others seeking ODOT Asphalt Concrete Technician Level 2 approval and/or desiring technical knowledge of basic asphalt paving mixture quality control testing. ODOT employees should contact their training coordinator to arrange training.

**Course Prerequisites:** Individuals taking this course must have familiarity with performing basic asphalt QC lab tests and have such experience documented by their employer.

**Contact Hours of Instruction:** 12

**Date, Time & Location:** Monday through Wednesday, June 19-21, 2017. The classroom instruction and written test will be held at The Shelly Company training facility and lab at 8775 Blackbird Lane, Thornville, OH, 43076.

The training course and test is two and one-half days long and begins at 9:00 A.M. on June 19 and 8:30 A.M. on the 20th and 21st. The Asphalt Level 2 Technician training includes 2 days of classroom instruction and a half day written exam administered by ODOT. The written exam will be administered by ODOT from 8:30 A.M. until noon on Wednesday, June 21, 2017. Students should bring a calculator and several pencils for working problems.

Individuals will be scheduled for a half day in the laboratory for a hands-on, practical test of knowledge of the basic QC tests. The practical lab exam will be conducted at The Shelly Company lab at 8775 Blackbird Lane in Thornville, Ohio. The lab practical tests will be scheduled to begin on Thursday, June 22, 2017 and continue for as many days as necessary to accommodate the numbers participating. There is a 10 person limit for each session of the practical exam. The lab practical lasts approximately 4 hours.

**Registration Fee:** \$600.00 per person for Flexible Pavements of Ohio member agencies, firms and companies and \$660.00 per person for all others. The size of the class is being limited as necessary for the examination and laboratory work. Registration will be on a first come first served basis. It is anticipated that this will be the last Level 2 training session for 2017. FPO reserves the right to cancel or relocate the training if insufficient interest exists or to schedule additional session(s) if demand exceeds the accommodations. Payment method must accompany registration. Fee includes sessions and reference materials.

**Course Prerequisites:** In order to maximize the benefit of the class you must have had some previous hands-on experience with **aggregate gradation, centrifuge extraction, maximum specific gravity and bulk specific gravity equipment**. This does not require that you know the test standards proficiently, but that you have run the test equipment and have learned the test basics. This minimal hand on experience can be obtained through your employer if they have the equipment or another source such as a contractor or consultant who performs the tests for various agencies. **A brief letter** from the owner of the test equipment stating that you have had hands on time (run a test to completion) with the above equipment is required before taking the school. This letter Must be Sent to Flexible Pavements of Ohio at least **One Week Prior** to attending the school. Failure to do so will result in you not being permitted to participate in the training.

**Release form:** There is an attached "**Hold Harmless and Indemnification Agreement**" (PDF) that must be signed by the attendee and received by the Flexible Pavements of Ohio before participation in the lab practical is permitted. Individuals registering for the course should download the PDF, complete and sign the form and return it to FPO, either by scanning the completed agreement and sending it as an e-mail attachment to [info@flexiblepavements.org](mailto:info@flexiblepavements.org), or by fax to 614-791-4800 or by mail to FPO at 6205 Emerald Parkway, Suite B, Dublin, OH 43016.

**\*\*\* ODOT LEVEL 2 ASPHALT TECHNICIAN APPROVAL PREREQUISITE \*\*\***

While it is **not required** to have completed the Radiation Safety Training Class before the attendance of a Level 2 Asphalt Technician Class or to take the Practical (hands on)

exam, it is however **necessary** to have completed this safety training and have a copy of the Radiation Safety Certificate on file with the Asphalt Materials section of the Office of Materials Management at 1600 W. Broad St., Columbus, Ohio before a person can officially be approved as a Level 2 Asphalt Technician.

The Level 2 Asphalt Technician schools will only include classroom training on the use of a Nuclear Asphalt Content Gauge and the practical (hands on) demonstration will not include the use of the part of the gauge which holds the radiation source.

**Cancellation Policy:** If a school participant needs to **cancel their reservation** in the Level 2 Asphalt Technician Schools they must do so **no later than five (5) working days** before the school in which they were scheduled takes place. Participants may be scheduled for another session if available or their registration fee will be refunded less a \$35 administration fee. Refunds will not be made to late cancellations or no-shows. Any questions pertaining to the training or qualifications for a Level 2 Asphalt Technician or the contents of the school may be addressed to:

Flexible Pavements of Ohio  
6205 Emerald Parkway Suite B  
Dublin, OH 43016

Toll free: 888-446-8649  
[info@flexiblepavements.org](mailto:info@flexiblepavements.org)

**NOTE:** ODOT will **hold** the completed written and practical Level 2 Asphalt Technician Exams for a **maximum of two months pending receipt of a radiation safety certificate**. If they do not receive the completed radiation safety certificate within that time period or have not received written knowledge as to the cause of the delay, the tests will be **discarded** and the complete class and exams must be retaken. If the Level 2 Asphalt Technician written test given at the school is failed, the test must be **retaken** within **3 weeks** or the test will be **discarded** and the class must be retaken. The practical portion of the Level 2 Asphalt Technician Exam must also be **completed** within **1 month** of successfully completing the written portion of the exam. Failure to do so will require a technician to **retake** the written test.

## Registration Form

Asphalt Quality Control Technician Level 2 School and Testing  
June 19-21, 2017

Register on-line at [www.flexiblepavements.org](http://www.flexiblepavements.org) or submit this registration form.

Please print the full name of the seminar registrant:

First Name: \_\_\_\_\_ Last Name: \_\_\_\_\_

Company Name: \_\_\_\_\_

Address: \_\_\_\_\_

City, State, Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_

**Registration Fee:** FPO Members \$600.00/ Others \$660.00 per person. Payment may be made by check or credit card (MC/V/AE/DSC/DNRS). Provide the following information for credit card payment:

Name on the card \_\_\_\_\_, Card # \_\_\_\_\_, Exp. Date \_\_\_\_\_

Amt. to be charged \_\_\_\_\_, billing address and zip: \_\_\_\_\_

Signature \_\_\_\_\_

If paying by check, make payable to **Flexible Pavements of Ohio**. Payment must accompany registration. Public agencies and member companies may submit purchase order and be invoiced. Detach registration form and return with your payment method to:

Flexible Pavements of Ohio  
6205 Emerald Parkway, Suite B  
Dublin, OH 43016

Registrations with credit card or PO may be faxed to 614-791-4800.
